Eyelash Extensions £12

The extensions are made up of several single strands of synthetic eyelashes that are joined together at one end to form a cluster and curved to replicate a natural eyelash. They provide length and thickness to your own lashes and are available in varying lengths and thickness.

They are applied to you individual eyelash, one cluster at a time. There is no need for mascara, although waterbased mascara is fine to use. The result is thicker, longer, eye-opening eyelashes that are safe in the shower, whilst swimming, sleeping or exercising.

These lashes will last up to ten days, so are perfect for special events such as weddings, parties or holidays

Individual half set £8
Individual eyelash infill £5
Individual eyelash removal £5

EYE TREATMENTS

Strip Lashes £5
These are made up of several single strands joined along a base so that all the lashes are applied together as one strip. The strip is glued to the eyelid, as close to the lash lines as possible. They give a dramatic effect and can last 24 hours, however must be removed before going to sleep.

HOPI CANDLES

Also known as Thermal Auricular Therapy... is a pleasant and non-invasive treatment for the ears, used to offer real and calming benefits for many problems ad conditions associated with the ear, nose and throat

A Hopi ear candle treatment is a deeply relaxing, calming and soothing experience. The process of Hopi candling involves a specially designed hollow candle inserted just inside the ear canal. It is then lit and the suction that forms will draw secretion and the flow is gently stimulated so that the vapour collects and removes impurities or deposits. It is often referred to as the chimney' effect. The rising air gives the ear drum a gentle massage and helps the ear to regulate ear pressure. This is soothing, calming and protects irritated areas.

Hopi Ear Candles £20
